Professional experience

Hy-Vee, Dubuque, IA

02/2016- Current

Certified Pharmacy Technician

- Hy-Vee, Dubuque, IA
- Certified Pharmacy Technician | 2016–Present
- Lead pharmacy technician supporting licensed pharmacists
- Managed prescription processing and insurance claims
- Performed data entry and medication order verification
- Administered vaccinations and supported clinic operations

Mercy Family Pharmacy, Dubuque, IA

2010-2016

Certified Pharmacy Technician

- This was where I got my start in the pharmacy business. I started off as a CphT in training and then later got certified in 2011. I mainly filled prescription orders. After I passed the Technician test I became a data entry specialist.

Bath & Body Works, Dubuque, IA

2009-2011

Sales Associate Team Lead

- I worked as a sales associate in a bath and body chain retail store. I rang up customers and helped them find what they were looking for and did a lot of demos for customers.
- I helped with many floor resets after hours and on holidays and I was a team lead. A Team lead in this business helps with the schedule and is also a key holder of the store. I had to be on time to work to be able to open the gates and get the store ready for the day's purchases and orders.

JB Robinson Jewelers, Dubuque, IA

2009-2011

Sales Associate

- I helped customers pick out jewelry. I helped many people in town pick out engagement rings and other jewelry type pieces like watches and bracelets and necklaces. I had to take a diamond grading class to become a certified rare jewels sales personnel member.
- I also helped customers get approved via credit checks to be able to afford their purchases.

Volunteer Work

- I donate my time 3 days a year helping organize and run a vaccination clinic at the 3 Hy-Vee's here in town. We help people fill out their forms and give up to 5 different kinds of vaccinations. We then administer the vaccines. Later after the clinic has finished for the day, we then bill everyone's insurance. These clinics are usually for about a 12-hour day for anyone working them.
- I also help my boss with flu shot clinics at various businesses around town. We plan, then my boss and I travel to their location and spend the day vaccinating employees that cannot get to the pharmacy to get them.
- CPR Certified

Dean's List/ Honor Roll

2023-2026

- I have achieved being on the Dean's list and honor roll each semester while in school to get my bachelor's degree in Web Development.
- GPA: 3.697

Leadership experience

Current

- Many of the jobs I have had you can see I have been in a Team Leadership role. When I work at a business or job, I find it important to do and be my best at what I am doing. I strive to accomplish goals in a timely manner, and I am knowledgeable at what I do. I like to help others, that I work with be their best and I am good at training others to help our team work efficiently and productively.
